## Thoughtful Formulation

Each product begins with research into ingredients and everyday needs, then careful refinement.

## Ingredient Transparency

We list the ingredients that matter and keep our language honest — no exaggerated claims.

## Made with Care

Prepared in small batches, the way we'd  
then use our own family and home.

# with purpose

Good products start with knowing what goes into them. We choose plant-forward ingredients for a reason — and we're always happy to explain why.

Our formulation approach: Research  
→ Ingredient selection → Formulation  
→ Small-batch preparation → Review  
→ Packaging.

OUR STORY · HYDERABAD

# A home experiment that became a promise

It started the way many good things do —  
with a simple question asked at home.  
Could the everyday products a family  
reaches for be made more thoughtfully,  
from ingredients you can actually  
understand?

— Srikanth & Supriya, founders

adjusted and made again — until a formulation felt genuinely good to live with: gentle enough for daily use, and honest about what went into it.

What began as care for her own family slowly grew into something worth sharing. Srikanth saw how much thought had gone into each recipe, and together they decided to bring these homemade, plant-based formulations to more homes.

That is how Surakshitam Naturals came to be — a small, founder-led business making home care, skin care and hair care the way you would make them for the people you love: carefully, and without shortcuts.

025

"I wanted products I'd feel  
completely comfortable  
using around my own  
family — every single day."

THE JOURNEY

# How it came together

01

## A question at home

In our own kitchen in Hyderabad, we began asking whether everyday products could be made more thoughtfully — with ingredients we could understand and explain.

02

## Years of patient research

Supriya spent years studying plant-based ingredients, essential oils and methods, learning what actually worked for real, daily routines.

03

## Made, tested, refined

Formulations were prepared in small batches and adjusted again and

again — until each one felt genuinely good to use at home.

## OUR PHILOSOPHY

# The principles behind every formulation

### Understand before formulating

We start with the everyday  
need, not the trend — then  
research our way to a  
formulation.

### Choose ingredients purposefully

Every ingredient earns its place  
for a reason we can explain  
in plain words.

# From idea to a finished bar of soap

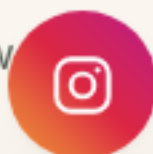

BEHIND A FORMULATION · 5 MIN READ

Every product in our range started as a question at home. Here is the path a formulation typically travels — from a rough idea to something we're happy to put our name on.

## 1. Research and ingredient selection

We read, we compare notes, and we learn at both traditional knowledge and contemporary understanding of an ingredient. Only then do we choose a shortlist that suits the everyday need we're designing for.

## POLICIES

# Shipping Policy

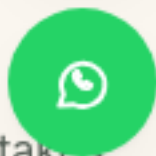

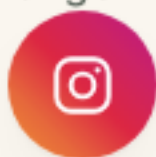

How and when your Surakshitam Naturals order reaches you. Timelines and charges below are current demo estimates — to be confirmed before launch.

## Dispatch time

Our products are made in small, considered batches. Orders are typically prepared and dispatched within 2–4 business days of a successful payment.

During new launches, festivals or high demand, dispatch may take a little longer — we'll keep you posted.

Once dispatched, delivery usually takes

Homemade & plant-based · Made with natural  
essential oils · Handcrafted in Hyderabad

**Surakshitam**  
NATURALS

we'll reach out to arrange a re-attempt or  
a refund per our Returns policy.

Draft policy for the prototype — to be finalised  
with the founders and legal review before launch.
